# Config and Update with Manually way

A: Uninstall Beloader Pro driver if you install it before. Here is the uninstall way:

B: After uninstall successfully, do as following way:

1: Hold Beloader Pro update button and insert into PC, you will find update disk.

2: Run PSN Account-ID Tool to get Account ID.

3: Open **PSN Config** text file from update disk, input the Account ID and PIN into it and save, the Pin is 8 digital on PS5 system.

4: Remove beloader pro from PC and insert into PS5 or other USB power adapter.

If user get problem still, please contact us bbsbeloader@163.com or tell us from forum.
